

DIGITAL IMPRESSION COUNTER

➤ *The Freeman Digital Impression Counter mounts easily in both rotary and flat dies for tracking of die performance. The counter verifies the number of impressions to assist the diemaker and converter in recording cutting die life.*

ORDERING

SKU #59814935 (Resettable)

SKU #59814940 (Non-Resettable)

Replaceable impression buttons available.

VERSATILE

- Designed for both Rotary and Flat dies
- 7-digit counting ability
- 3-year battery life

HELPFUL TRACKING

- Helps converters track die performance
- Resettable option monitors batch counts
- Non-resettable option provides cumulative die life totals

EASY INSTALL

- No extra modifications required
- Screw-mounts with molded tabs

Since entering the steel rule die industry, Freeman has been constantly expanding its offering to become your one-stop shop for diemaking needs. We are proud to supply flat and rotary boards, rule, rubber, and hardware while developing innovative, problem-solving products!

BRANCH LOCATIONS & PUBLIC WAREHOUSES

Freeman has strategically placed satellite locations across North America with customer service representatives ready to help. Thousands of products are stocked at these locations as well as public warehouses to reduce your shipping costs.

STRATEGIC & EFFECTIVE STOCKING SYSTEMS

Freeman's inventory staff constantly monitors sales and stocking data across the country to properly provide the right amount of products at each location.

WORLDWIDE SHIPPING

Freeman ships orders all across the globe and has various international distributors available to supply customers with top-quality products.
