

Bohler X-Press Rule

Description

The patented back-design of this cutting rule makes way for the predefined compensation area for the cutting rule to self-level under pressure. This allows the cutting tip to be under less strain and remain sharper for a longer period of time. This means substantially longer tooling life. This rule is especially suitable for large volume jobs where highest quality is needed.

Physical Properties

Body Hardness	~340 HV (35 HRC)
Tip Hardness	~660 HV (58 HRC)
Bevel Angle	53° / 42°
Point Thickness	2, 3
Height	23.8mm (0.937")
Bevel Finish	S, P

Availability & Ordering Information

Steel rule is available in four bevel profiles:

- CF (Center Face, Single Bevel)
- SF (Side Face, Single Bevel)
- CFDB (Center Face, Double Bevel)
- SFDB (Side Face, Double Bevel)

Bohler X-Press is available in two bevel finishes:

- Shaved
- Polished

Steel rule in 30", 36", and meter lengths can be purchased by the piece. Clockwise, anti-clockwise, and dispenser coils are sold in full coils only.
