

Helmold Flat Creasing Rule

Description

Helmold® Flat Crease Rule comes in the traditional profile with a radiused top and flat bottom, as well as a dual radiused profile. This shape allows either edge to be used for scoring, will not splitter wood, and produces well defined scores while inhibiting board cracking. This creasing rule is designed for all applications in the packaging and folding carton industries. Its smooth face and quality tolerance makes this rule great for all applications.
