

## Bohler Bundle Breaker (BBreaker) Rule

### Description

Bohler® Perforating BBreaker Rule is a pre-nicked serrated rule that reliably holds multiple out diecuts together.

*Fine BB* has a standard of 1mm (0.045") gap every 6mm (1/4"). At 18% hold, this allows for the lightest of hold on long common knives.

*Standard BB* has a standard of 1.4mm (0.055") gap every 6mm (1/4"). At 22% hold, this allows for a medium nick on a wide range of corrugated materials.

*Strong BB* has a standard of 1mm (0.045") gap every 3mm (1/8"). At 36% hold, this allows for a stronger, more durable hold for smaller common knives, as well as drier and heavier corrugated boards.

*Heavy BB* has a standard of 1.4mm (0.055") gap every 3mm (1/8"). At 44% hold, this allows for a firm hold on any job.

### Availability & Ordering Information

Steel rule is sold in coils for auto-benders, (wound clockwise CW or anticlockwise ACW). Also available in dispenser coils and boxed strips.

The user shall determine the suitability of this product for their application and assumes all risks and liabilities associated with the use of this product.
